## Extra Trash Stickers

If you need to dispose of more than 2 32-gallon containers of trash in a week, an Extra Trash Sticker can help. When you put your trash out for collection, simply attach the sticker so that it bridges the gap between the lid and the container. **Each sticker is valid for one-time use only.** (The trash hauler will remove the sticker when emptying the container). As always, trash must be bagged and completely inside the container. Extra Trash Stickers are available for purchase at both the City Clerk's Office and at the Department of Public Works.

**Price:** A set of 5 stickers is \$15; You must purchase the stickers in increments of 5

### How to use:

- The sticker must be on a top bag in the container if it does not have a lid. If the container has a lid, it must be across the gap between the barrel and the lid.
- The Extra Trash Sticker does not replace the Bulky Item Sticker. If it cannot fit into a 32-gallon trash container, use a Bulky Item Sticker instead.
- Bags on top of the container with an Extra Trash Sticker on them will **not** be collected. **All trash bags should be inside a container.**
- Extra Trash Stickers **cannot** be used at the transfer station.

### Who can buy:

Families who live-in single-family homes, duplexes or triplexes.

### Who cannot buy:

- Businesses or any commercial/industrial establishment.
- Owners of dedicated AirBnBs. (They are a business).
- Residents who live on private roads, **unless** they bring their trash can to the public right of way for collection.
- Families who live in apartment complexes or condominium associations that have over 3 units
  - Most condominium associations in the City have over 3 units.
  - There are many apartment complexes that have over 3 units.
